J K INDUSTRIAL CORPORATION

Manufacturer & Supplier of High Quality Hand Tools

Company Profile

J.K. Industrial Corporation a leading Name in the Hand tools for past many years has been a reckoned name in international markets. Recognition in Quality, Services and Competitive prices exposed J.K. Industrial to global markets making us today the growing group as a manufacturer, supplier and distributor.

The Company is supported by its own dedicated and inspired team of engineers for designing and testing as per international standards and smart marketers for efficient sales. All our Products confirm to the highest international standards and are being constantly researched daily to enhance the performance. Serving the global sectors for past several years in different geographical markets, we are aware of the changing needs of the customers which we are upgrading on time to time basis.

At J.K. Industrial we are there :

- . To supply quality at the best possible price and achieve total customer satisfaction.
- . To monitor the latest development and keep abreast the diversifying markets. customers which we are upgrading on time to time basis.

The Continuous flow of patronage by the esteemed customers year after year enthalls our motive to excel in establishing the name J.K. Industrial Corporation as the market leader....

Double Open End Spanner :

- Recessed Panel, Matt Finish Carbon Steel, Chrome Plated Short & Long Pattern
- Recessed Panel, Carbon Steel White/Yellow Zinc Plated Din895
- Recessed Panel Head Polish CRV Steel Long Series Din 3110
- Recessed Panel Chrome Vanadium Steel Spanner
- Elliptical Panel, Fully Polish Chrome Vanadium Steel
- Elliptical Panel, Stain Finish Chrome Vanadium Steel
- Elliptical Panel, Black Chrome Finish Vanadium Steel

**JACK PLANE**

DESCRIPTION - planes are made in wide range of patterns and sizes suitable for different purposes. Cutting blades of all adjustable planes are made of high carbon steel.

The cutting blades are hardened and tempered under scientific control insuring accuracy & uniformity.

The body is ribbed to insure strength & rigidity. Parts for adjusting the cutting blade are accurately made to give very fine adjustment.

The handle and knob are of selected hand-wood / high quality plastic & are fastened to the body by steel studs with steel cap nuts.
